Alistair R. Brown is a Consulting Reservoir Geophysicist working out of Dallas, Texas. His specialties are interpretation of three-dimensional seismic data, stratigraphic interpretation, optimum use of interactive workstations, seismic reservoir identification and evaluation, and the meaning of seismic amplitude. He spends much of his time teaching interpretation methods and advising on interpretation problems worldwide. Alistair graduated from Oxford University in England, having attended The Queen's College, and has over 40 years of geophysical industry experience. He has been using 3-D seismic data since 1975 and interactive workstations since 1980. He has developed many new interpretation methods and is a widely published author in his field. The making of the first horizon slice in 1979 was a particular accomplishment. The Seventh Edition of his book Interpretation of Three-Dimensional Seismic Data (AAPG Memoir 42/SEG Investigations no. 9) was published in 2011 following previous editions in 2004, 1999, 1997, 1992, 1989, and 1986. He won the SEG Best Presentation Award in 1975, was AAPG Distinguished Lecturer in 1988-89, SEG Distinguished Lecturer in 1991, and Petroleum Exploration Society of Australia Distinguished Lecturer in 1994. In 1999-2000 he was the inaugural Joint AAPG/SEG Distinguished Lecturer. In 1998 Alistair was awarded SEG's Special Commendation Award for his work in developing and teaching 3-D methods. In 2002 he was awarded Honorary Membership in the Geophysical Society of Houston, and in 2004 Honorary Membership in Dallas Geophysical Society. In 2006 he received Honorary Membership of the Society of Exploration Geophysicists. In 2009 AAPG awarded Alistair the Distinguished Service Award. He is also a member of EAGE, was Chairman of THE LEADING EDGE Editorial Board from 1986 to 1988, and editor of the Geophysical Corner in AAPG Explorer from 2004-05.
Sponsorships

The event is funded by a nominal registration fee plus sponsorships and advertising by industry corporations.

Sponsorships will be used to offset expenses of the event. Remaining funds, if any, will be divided among scholarship funds and other GSH technical, outreach and educational activities. Recognition of sponsorship, according to the donation level, will be displayed on the cover of the Proceedings Workbook, signage at the event, and posting on the SEG website and the GSH website plus publication in the GSH Journal. Complimentary registrations are included. The GSH is a 501(c)3 not for profit organization. Sponsorships are fully tax deductible.

Contact Information

Please send sponsorships and advertisements to: Karen Blakeman, Geophysical Society of Houston, 14811 Saint Mary’s Lane, Suite 204, Houston, TX 77079, karen@gshtx.org, 281-741-1624. Make checks payable to The Geophysical Society of Houston and earmarked “2015 Spring Symposium.”

Contact the GSH office for questions or additional information or visit the gshtx.org website and select “Activities and Events”
